

## Why Cite Sources?

### Why cite your resources?

- You will have a record of your research.
- You will be able to recreate your research.
- Your instructor will be able to find your resources.
- You will be protected from plagiarism.
- You will be protected from any possible copyright infringement issues.
- Anyone reading your paper will know that your research is based on dependable and trustworthy resources.
- You are giving credit to the author/creator of the resource.
- Citations are necessary for readers to research your findings and find more information if they are interested in your topic.
